Ask the SBM Expert – helpdesk support

With the introduction of the new General Data Protection Regulations (GDPR) coming soon, schools will be starting to think about the challenges that face them in ensuring they are compliant. To support schools in ensuring they are compliant we are offering a range of support services to meet differing requirements and budgets.

Why SBM Services Ltd?

- Proven track record of supporting schools with all aspects of business management
- We will ensure you don't pay more than necessary to meet the new requirements
- All packages include access to the SBM Toolkit, our library of school business management resources
- We are working in partnership with a law expert who specialises in education
