

The School Community Competition 2020

Press Release

4th February 2020 – for immediate release

Local business launches competition for primary pupils to win up to £1,500 for their school

A local business that works with schools in Colchester and the surrounding area has launched an initiative to improve school communities. The School Community Competition is open to year 5 pupils to apply to win up to £1,500 from SBM Services for creative and innovative projects in their school. Pupils will face a dragon's den style panel of judges in July to sell their idea and explain how it'll benefit the school. Managing Director, Justine Berkeley, explains "I'm really excited to be launching our first competition to fund school community projects. I can't wait to hear the pupils present their great ideas and how it will benefit their school." Schools have until Friday 22nd May to submit their applications to info@sbmservices.co.uk

Notes for editors:

SBM Services Ltd provides high quality and affordable business and accountancy services to schools and academies. All our services are managed and delivered by an energetic team with a wealth of experience, a range of accountancy and business management qualifications and an excellent reputation in the education arena. SBM Services not only save schools time and keep them compliant with their statutory responsibilities but can also prevent schools from spending more money than they have to. Saving schools money through our cost-effective solutions and taking away the burden of meeting regulations allows schools to focus their resources on where it matters most: improving outcomes for children.
